

# Have a Holly, Jolly Holiday Streaming Top Titles on GeForce NOW

Grab some cocoa and start your holiday gaming with six new titles streaming from the cloud.

Author: GeForce NOW Community

While the weather outside may or may not be frightful this holiday season, new games on GeForce NOW each week make every GFN Thursday delightful.

It doesn't matter whether you're on the naughty or nice list. With over 1,400 titles streaming from the cloud, there's something for everyone to play across nearly all of their devices — including six titles that join the GeForce NOW library today.

With so many games streaming across nearly every device, the options for great gaming and ways to play on GeForce NOW are practically endless.

Light games up like a holiday tree, turning RTX ON for cinematic, real-time ray tracing in titles like Marvel's Guardians of the Galaxy , Control and Cyberpunk 2077 . RTX ON is available to RTX 3080 and Priority members , who also get the perks of extended play sessions and dedicated servers to get into games faster.

Transform Macs into gaming rigs with the power of the cloud and play PC-exclusive titles like New World and Lost Ark , or take top titles to the big screen streaming to NVIDIA SHIELD or Samsung Smart TVs in glorious 4K resolution.

Take gaming on the go while traveling for the holidays with mobile devices. Drop into Fortnite or tap your way through Teyvat in Genshin Impact , streaming to mobile devices with touch controls .

Experience top titles from publishers like Ubisoft, including Assassin's Creed Valhalla and Far Cry 6 , and enjoy games that will test your skills like ICARUS and Crysis Remastered — all streaming in 4K resolution from PC and Mac apps with an RTX 3080 membership.

Get a head start on building out your library of games with over 100 free-to-play titles like Apex Legends and the newest season of Roller Champions — and take game progress to any device with cloud saves. RTX 3080 members gain a competitive advantage in multiplayer games, as no-sweat streaming with ultra-low latency leads to more victories.

And with the holiday season underway, the Epic Games Store free games are in full swing. Check its Free Games page regularly to claim titles, many of which we'll work to bring to the cloud in the weeks ahead.

Dash over to the membership page for more information on the benefits of a GeForce NOW premium membership.

A new set of games arrives just in time as the holiday season heats up.

Check out the following titles streaming from the cloud this week:

Master of Magic (New Release on Steam )

Roller Champions (New Release on Steam )

Wavetale (New Release on Steam )

Cosmoteer: Starship Architect & Commander ( Steam )

Floodland ( Steam )

Marvel's Midnight Suns ( Epic Games Store )

Members can also now experience the next-gen update for The Witcher 3: Wild Hunt — Complete Edition . The update is free for those who own the game and GeForce NOW members can take advantage of upgraded visuals across nearly all of their devices.

Keep an eye out as Origin versions of Electronic Arts games transition to the new EA app , starting with Battlefield 2042 this week. Along with ownership of these games, members' content, cloud saves and friends list will transfer to the EA app.

Give the gift of gaming with all of the perks of a GeForce NOW membership through a GeForce NOW gift card . It's the perfect stocking stuffer or last-minute gift to treat friends with.

With so many titles to play on the cloud, what game are you most looking forward to playing over the holidays? Let us know on Twitter or in the comments below.
