Help restore Disney magic to the Valley and go on an enchanting journey — full of quests, exploration and beloved Disney and Pixar friends.

Disney fans of all ages will enjoy seeing their favorite characters, from Disney Encanto's Mirabel to The Lion King 's Scar, throughout the game when it launches in the cloud later this month. Members can jump onto their PC, Mac and other devices to start the adventure without having to worry about download times, system requirements or storage space.

Starting off the month is Capcom's popular action role-playing game Monster Hunter Rise: Sunbreak, including Free Title Update 4 , which brings the return of the Elder Dragon Velkhana, lord of the tundra that freezes all in its path. The game is now available for GeForce NOW members to stream , so new and returning Hunters can seamlessly bring their monster hunting careers to the cloud.
