It's the first GFN Thursday of the month and you know the drill — GeForce NOW is bringing a big batch of games to the cloud.

Get ready for 38 exciting titles like Saints Row and Rumbleverse arriving on the GeForce NOW library in August. Members can kick off the month streaming 13 new games today, including Retreat to Enen with RTX ON.

This month is packed full of new games streaming across GeForce NOW-supported devices. Gamers have 38 new titles to look forward to, including exciting new releases like Saints Row and Rumbleverse that can be played on Macs only via the power of the GeForce cloud.

Members will be able to visit the Weird Wild West of Santo Ileso, a vibrant city rife with crime in Deep Silver's explosive franchise reboot of Saints Row . Embark on criminal ventures as the future Boss, form the Saints with allies Neenah, Kevin and Eli, take down competing gangs, and build your criminal empire to become truly Self Made.

Gamers will also be able to throw down in Rumbleverse , a new, free-to-play, 40-person Brawler Royale where anyone can be a champion. Customize your fighter by mixing and matching unique items and launch your way into the battlefield, streaming at full PC quality to mobile devices .

RTX 3080 members will also be able to play these and the other 1,300+ titles in the GeForce NOW library streaming in 4K resolution at 60 frames per second, or 1440p at 120 FPS on PC and Mac native apps .
