Cooler weather, the changing colors of the leaves, the needless addition of pumpkin spice to just about everything, and discount Halloween candy are just some things to look forward to in the fall.

GeForce NOW members can add one more thing to the list — 25 games joining the cloud gaming library in October, including day-and-date releases like A Plague Tale: Requiem , Victoria 3 and others.

Let's start off the cooler months with the six games streaming on GeForce NOW today.

There's a heap of gaming goodness in store for GeForce NOW members this month.

A tale continues when A Plague Tale: Requiem releases Tuesday, Oct. 18, enhanced with ray-traced effects for RTX 3080 and Priority members .

After escaping their devastated homeland in the critically acclaimed A Plague Tale: Innocence , siblings Amicia and Hugo venture south of 14th-century France to new regions and vibrant cities. But when Hugo's powers reawaken, death and destruction return in a flood of devouring rats. Forced to flee once more, the siblings place their hopes in a prophesied island that may hold the key to saving Hugo.

The new adventure begins soon — streaming to even Macs and mobile devices with the power of the cloud — so make sure to add the game to your wishlist to start playing when it's released.

Unique challenges and fierce, online multiplayer races are available for all members, whether an off-road simulation diehard or a casual racing fan.

This week also brings the latest season of Ubisoft's Roller Champions . " Dragon's Way " includes new maps, effects, cosmetics, emotes, gear and other seasonal goodies to bring out gamers' inner beasts.
